

How to...find options with your subject

Do you want to know which careers graduates in your subject can go on to?

An options sheet will tell you:

- Jobs relevant to your degree
- The skills you may have gained through your studies
- The national picture for graduates in your subject
- About further study and other options

Options sheets can be found on Prospects Web (www.prospects.ac.uk), which is the official student and graduate careers website.

- ✓ Click on the 'Careers Centre' button from the green menu across the top
- ✓ Choose 'Options with Your Subject' from the drop-down menu
- ✓ Click on the relevant subject in the list
- ✓ If your subject isn't there, click on the nearest equivalent, e.g. for Cultural Studies, use Combined Arts
