HOW TO LOAD PAPER TRAYS (TRAYS 1-4)

1. Pull the tray out carefully.

2. IF NEEDED: Before loading paper, adjust the paper-width guides by holding down the blue lock/unlock toggle switch on the rear paper-width guide, pinching the blue adjustment latch on the front paper-width guide, and then sliding the guides to the fully open position.

3. Square the paper and load it with the print side facing up.

4. While pressing the release lever, adjust the side and end fences to the paper size.

5. Push the tray in the original position carefully.

6. To return the completely pulled out tray to the original position, push the tray straight in.

7. Adjust the paper-length guide by pushing in at the bottom of the blue adjustment latch while sliding the guide to the size of the paper being used.

8. If the paper tray is damaged, it may cause a paper jam. Also, if you push the tray forcibly, the side fence of the tray may be moved.

9. Do not stack the paper over the limit mark.
