

# Book of the Dead: Activity Pack

## Making a Book of the Dead Roll

- There was no set size of the Book of the Dead in ancient Egypt – the length depended on how much you could pay!
- Of all the spells included, the Weighing of the Heart scene is one of the most common, showing the judgement of the deceased before the god Osiris

### Directions:

- Cut out the above drawing of the Weighing of the Heart – OR copy it in a bigger scale (depending on age of students involved)
- Colour it (the original image, from the British Museum, is below as a guide, but any colour is fine!)
- Age the 'papyrus', e.g., by the tea-bag method
- Roll up the scroll and put it in your tomb!
