List of systems that PGR students will use:
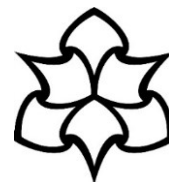

System	What is it and what does it do?	Where you can find further information
Moodle	The virtual learning environment used by Manchester Met. The PGR Hub is one-stop-shop for postgraduate researchers (PGRs) where you can find information about many aspects of the the PGR experience: • Who we are and how to stay in touch • The mandatory Online Induction • Managing your research degree (including the regulations, handbook and key documents) • An area to make 1:1 appointments to discuss any progression or assessment queries • Careers and employability • Wellbeing and support • Training and Development (including training brochure, training needs analysis, and information on training available - face to face, online, and modules for self-completion • Funding including the Research Support Award All students are automatically enrolled in the Moodle PGR Hub area. If you can't access Moodle, contact research.students@mmu.ac.uk	https://moodle.mmu.ac.uk/course/view.php?id=87241
SkillsForge	The University system that monitors all milestones on the PGR student journey.	https://moodle.mmu.ac.uk/mod/page/view.php?id=1657645 or https://skillsforge.mmu.ac.uk/mmu/#common/main/welcome
EthOS	The University's ethical approval system. It is a requirement that staff and students obtain ethical approval for all projects.	https://www2.mmu.ac.uk/research/staff/ethics-and-governance/
P2P	Potentially SciEng only. Academic Year 2019/20. This is the procurement system. Currently students use a separate requisitioning system that is to be phased out academic year 18/19. Procurement relates only to consumables such as chemicals and reagents (travel and IT are not ordered by PGR students. Currently being piloted.	https://www2.finance.mmu.ac.uk/services/?id=6&rootid=153

MyCareer Hub	Online hub giving you access to exclusive careers support and resources.	https://www2.mmu.ac.uk/careers/my-career-hub/
LabCup	School of Healthcare Sciences (potentially Sci&Eng Faculty-wide) Online system for health and safety in laboratories.	https://www.labcup.net/
e-space	The University's Research repository is called e-space. It provides a permanent record of the intellectual outputs of the University and, where possible, makes a full text of the publication freely available to download. e-space is managed by the Library Service.	http://e-space.mmu.ac.uk/
Eventbrite	Website used for managing events. Currently used to book on to training workshops and assist with managing numbers attending inductions and Faculty events, e.g. Garden Party and Research Symposium.	https://www.eventbrite.co.uk/
Online re-enrolment pages	Pages accessed via the ManMet website. Used to re-enrol each year and at enrolment.	https://www.pmi.mmu.ac.uk/Self_Enrol/login.asp
